

Report

National Science Day

National Science Day was observed today on 28-2-2023 at 12.30pm in the Conference Hall of the college under the theme "*Global Science for Global Wellbeing*". The organizer of the programme Dr. Tariq Ahmad Dar Assistant Professor Botany deliberated on the history and objectives of the National Science Day. Dr. Tanveer Bilal Assistant Professor Bioresources gave a detailed presentation on the organic farming, its present status and future prospects. He mentioned the need and importance of organic farming and discouraged the use of chemical fertilizers/pesticides in large quantities. The SDG Goal Number 2 i.e to combat hunger crisis and sustainable management of Bioresources was also highlighted. The programme was attended by about 30 students of the college and faculty members from various departments.
